Hopes and fears

Do you remember when I first saw you?
It was time when there were not many tears
Do you remember when you told all is fine?
We live in our hopes and fears

Think that you can stand on your own?
How you always get your way with that tease...
In the end you always find time to moan
We live in our hopes and fears

LOOK ME IN THE EYES
ERASE ME BEFORE GOODBYE

REF.: This is the fate, It's fucking my way
I'll never feel it anymore I will want to stay
Now I'm feeling good, There's nothing left to show
Look at the truth you're not supposed to know

Behind our thinking is something what say stop
you are so scared, you are too scared
Behind our thinking we stand in hope of us
you feel this, you feel this
